

edr update is our client e-newsletter designed to give EDR clients the latest information on our online service available for processing duties transactions.

## A message from Stephen Brady, Deputy Secretary, OSR

The Office of State Revenue is committed to the Government's target of having 70 per cent of transactions conducted digitally by 2019. One of our digital services, Electronic Duties Returns (EDR), allows authorised agents to process a wide range of Duties transactions from their office. This service also allows solicitors and conveyancers to seamlessly integrate with e-Conveyancing platforms and services.

Currently, some legal firms continue to lodge documents for assessment that could be done via EDR, this is unsustainable.

Commencing 1 July 2016, conveyancing documents, which can be processed through the EDR system, will no longer be assessed by the Office of State Revenue. This is the first step of our digital transformation for property with more to come in 2016 and through 2017. I look forward to building our digital future together.
